

PUBLIC NOTICE

**Suggestions and Objections on Maharashtra State Electricity Distribution Company Limited's (MSEDCL) Annual Performance Review (APR) Petition for FY 2008-09 under MYT framework, truing up for FY 2007-08 and determination of Aggregate Revenue Requirement and tariff for FY 2009-10
 (MERC Case No. 116 of 2008)**

1. The Maharashtra State Electricity Distribution Company Limited (MSEDCL) has filed a Petition for Approval of Annual Performance Review (APR) for FY 2008-09 under MYT framework, truing up for FY 2007-08 and determination of ARR and tariff for FY 2009-10 before the Maharashtra Electricity Regulatory Commission (MERC) under the Electricity Act, 2003. The Commission has admitted the Petition on May 8, 2009 and directed MSEDCL to publish a Public Notice under Section 64(2) of the Electricity Act, 2003 for inviting suggestions and objections from the Public through this Notice¹.

2. Comparison of Existing and Proposed Tariffs

Category-wise comparison of existing and proposed tariffs (i.e., Fixed Charge, Energy Charge, etc.) along with percentage increase in tariff (i.e., Average billing Rate) is as under:

Table 1: Comparison of Existing and proposed HT Tariff Schedule

HT II	150	700	14	25	739	300	981	100%	33%

¹ NOTE: The ARR and Tariff proposal for FY 2009-10 are based on MSEDCL's projected reduction of Distribution Loss of 1% during FY 2009-10, and quantum of power purchase from MSPGCL as per MSEDCL's projections. However, if Distribution Loss is considered in accordance with the loss reduction trajectory of 4% as approved by the Commission in the MYT Order, and the quantum of power purchase from MSPGCL is considered as per MSPGCL's APR Petition, the likely impact on Revenue Gap for FY 2009-10 has been shown under Supplementary Submission as well as under the shaded portion at relevant places under this Public Notice.

5. Tariff Proposal of MSEDCL

a. Tariff Philosophy Suggestions

MSEDCL would like to submit the following suggestions for determination of tariff

- a) 10% ceiling on levy of FAC should be removed.
- b) MSEDCL requests the Hon'ble Commission to permit MSEDCL to pass on the variations in the cost of power procurement to the consumers, excluding the consumers belonging to BPL Domestic, LT & HT Agricultural and LT & HT Public Water Works category consumers and may please permit MSEDCL to levy FAC on remaining categories of consumers in proportion to the base tariff as may be applicable to respective consumer category.
- c) MSEDCL is requesting the Hon'ble Commission for removal of Load factor and TOD Tariff Incentive applicable to all the consumers for the FY 2009-10.
- d) MSEDCL requests the Hon'ble Commission for rationalisation of Fixed/ Demand Charges with a rationale that Fixed Component of Tariff should reflect the recovery of Fixed Cost incurred by MSEDCL.
- e) MSEDCL would like to submit that applicability of BPL Domestic tariff should be such that the BPL Domestic tariff shall be exclusively applicable to individual consumer / person and shall not be applicable to any institution, even though the Domestic tariff is applicable to such an institution. The procedure for determining applicability of BPL Domestic tariff may be decided by Hon'ble Commission.
- f) MSEDCL requests the Hon'ble Commission that the existing tariff as applicable to Low Tension BPL Domestic consumers, LT / HT agricultural consumers and LT / HT PWW consumers may be retained at current levels.
- g) MSEDCL requests Hon'ble Commission that energy charges for LT I Domestic-0-100 Units be approved as proposed in the Petition.
- h) Consumers on Express feeders are proposed to be charged an express feeder charge which shall be calculated as 15% of energy charge of the respective category for any of the HT

tariff categories except HT III Railways, HT Agriculture (pumping), Govt (fully owned only) Hospitals and educational institutions and HT PWW (pumping).

- i) MSEDCL is authorised to decide the tariff category of the consumer based on the usage of electricity. The IT and IT enabled industry is classified by the Industry Department. The mobile towers and the commercial broadcasting towers and all other similar activities are proposed to be classified under commercial category.
- j) MSEDCL proposes to modify the existing applicability of Hi-Tech Agriculture consumers.
- k) MSEDCL proposes a separate category covering the consumers of LT Flour Mills, LT Power loom and LT cold storage (Agriculture produce)

b. Tariff Schedule

The revenue from proposed tariffs in FY 2009-10 has been estimated by applying the proposed rates to the projected sales and consumer related data as per segregation provided by Hon’ble Commission in its previous Tariff Order dated June 20, 2008. MSEDCL has also included the impact of Review Order dated December 10, 2008.

MSEDCL has considered the following while determining proposed tariff for FY 2009-10

- 1. Existing tariff as applicable to Low Tension BPL Domestic consumers, LT / HT agricultural consumers and LT / HT PWW consumers may be retained at current levels.
- 2. LT I Domestic-0-100 Units energy charge is marginally increased and increase of demand charges as proposed in the Petition.
- 3. Double the fixed charges to rationalise the fixed charge revenue and ensure recovery of fixed cost except Low Tension BPL Domestic consumers, LT / HT agricultural consumers and LT / HT PWW consumers.
- 4. HT I Continuous energy charge proposed to be 15% higher compared to HT I Non Continuous as premium for better supply.
- 5. Increase the energy charge for remaining revenue gap after carrying above mentioned considerations.

c. Proposed wheeling charges for FY 2009-10 and wheeling loss

Table 17: Proposed wheeling charges for FY 2009-10

Voltage Level	Unit	Wheeling Charges
33 kV Level	Rs/KW/Month	152
22/11 kV level	Rs/KW/Month	202
LT level	Rs/KW/Month	224

MSEDCL proposes that wheeling losses determined by Hon’ble Commission in its Order dated June 20, 2008 for drawal at 33kV and 22/11 kV shall be applicable for FY 2009-10.

MSEDCL would also like to submit that consumers seeking open access at LT level shall be levied with opening distribution loss of FY 2009-10. Hence, MSEDCL proposes that wheeling loss applicable for open access transactions entailing drawal at LT level is 22.2%.

6. Cross-subsidy Reduction for FY 2009-10
